Preamble

The Indian Institute of Metals - Visakhapatnam Chapter and **RINL, VSP** are conducting Green Steel & Sustainability Conference. IIM proudly continues its legacy of promoting excellence in metallurgical science and technology. Metallurgical and allied Materials industries form the backbone of global infrastructure and development. However, they are among the most energy- and carbon-intensive sectors. Greenhouse gas emissions, solid waste generation, and fugitive emissions are the major concerns of metallurgical industry especially Steel industry. As environmental regulations are getting stringent and the global momentum toward decarburization accelerates, integrating sustainability into manufacturing processes has become imperative. This conference aims to address the urgent need for sustainable transformation in steel plant operations. It will explore strategies for optimizing resource utilization, minimizing emissions and energy consumption, and embracing circular economy principles, while maintaining production efficiency. Key focus areas include:

- CO_2 Emission Reduction
- Waste Management and Valorization
- Circular Economy Integration
- Energy Efficiency and Clean Technologies.

This conference will unite industrial pioneers, academic experts, researchers, consultants and technology & equipment suppliers to share insights, foster collaboration, and chart a path toward a greener, more resilient future for metallurgical industries. This conference reinforces a shared commitment towards the vision of a Green India.

Location and Logistics

Visakhapatnam is a place of rare and breathtaking beauty, where the landscape itself inspires a sense of grand scale and endless possibility. It is surrounded by a spectacular convergence of nature—where the lush, green heights of the **Eastern Ghats** and hills like **Kailasagiri** drop dramatically right into the vast, deep blue waters of the **Bay of Bengal**

Visakhapatnam is a well-connected city with robust road, rail, and air networks, making travel convenient from all parts of India. The conference venue, Management Development centre(MDC), Ukku House, Sector-5, Ukkunagaram,

Visakhapatnam is easily accessible from railway stations – Duvvada and Visakhapatnam.

The city offers a wide range of accommodation options, from budget hotels to premium star-rated properties, along with abundant local transport facilities. Visakhapatnam also boasts numerous cultural and historical attractions, making it an engaging destination for visitors.

The Conference Organizing Committee will be pleased to assist with accommodation arrangements in nearby star hotels and local travel logistics, subject to availability and advance intimation. Support will be provided on request and on payment basis, so participants are encouraged to inform the committee well in advance to ensure smooth coordination.
