Invitation

On behalf of the organizing committee, it is our pleasure to invite you to participate in the 7th IBAAS International Conference & Exhibition (IBAAS-2018) being held in Mumbai, India during September 5 -7, 2018 in association with Aluminium Association of India (AAI) and The Indian Institute of Metals (IIM).

The title of the IBAAS-2018 conference is *"Indian Aluminium Industry - Status, Strategies & Way Forward for Accelerated Growth"*. The conference organizing committee is formulating a world class program focusing on key topics and issues in the bauxite, alumina, aluminium and aluminium downstream industry and secondary sectors.

The Conference and Exhibition will provide an excellent opportunity to meet and interact with International experts, scientists, engineers, entrepreneurs, equipment manufacturers, representatives of aluminium industries world over.

Best Regards,
IBAAS

Associated Organizers

International Bauxite, Alumina & Aluminium Society (IBAAS) is set up and registered in India [Registration No. MAH-820/12 (N)] by professionals active in various fields of aluminium industry. The founders of this society have vast experience in organizing similar conferences on bauxite, alumina and aluminium in India, China and Guinea. IBAAS has successfully organized six International events of Aluminium Industry in Asia and Africa during the 2012-2017 period. Details of these IBAAS International conferences can be downloaded from the IBAAS website <http://www.ibaas.info/>

The Indian Institute of Metals (IIM) is a premier organization representing materials and metallurgical engineers in India. Founded in 1946 by a group of metallurgists led by Dr. D.P. Antia, IIM is the largest professional organization for metallurgist in India with over 10,000 members from R&D laboratories, academia and industry. The two main objectives of IIM are: promoting and advancing the science and technology of metals and alloys and protecting the interests of metallurgists and metallurgical industry. Website <http://www.iim-india.net/>

Aluminium Association India (AAI) is a member of International Body of Aluminium Associations, has always projected proactive views focusing on the principal objective of increasing Aluminium production and consumption in the country by the way of promoting Aluminium in the application sectors i.e. Transport, Power, Packaging, Building, Infrastructure, Defence and other strategic applications etc. by the way of Seminars, Round Tables, Workshops, National and International Conferences etc. Website: <http://www.aluminium-india.org>

Jawaharlal Nehru Aluminium Research Development and Design Centre (JNARDDC) is an autonomous body under ministry of mines, Govt. of India. It is a “center of excellence” set up in 1989 as a joint project by Ministry of Mines, Government of India and United Nations Development program and fully functional since 1996. It was set up with a vision to create a state of the art research institute for the development of technologies and provide services to both primary and secondary aluminium industries with a special emphasis on environmental sustenance, energy and material conservation.
